Attachment I

Regulations Regarding International Students Undertaking Studies in Taiwan

(Extract)

Amended on September 8, 2017

Article 1

These Regulations are formulated in accordance with the provisions of Article 25, Paragraph 3 of the University Act, Article 32, Paragraph 1 of the Junior College Act, Article 41, Paragraph 1 of the Senior High School Education Act, and Article 6, Paragraph 3 of the Primary and Junior High School Act.

Article 2

A person of foreign nationality who has never held Republic of China ("R.O.C.") nationality and who does not have overseas Chinese student status at the time of their application is permitted to apply for admission to an educational institution, in accordance with these Regulations.

A person of foreign nationality who meets the following requirements and who in the immediate past has resided overseas continuously for at least six years is also permitted to apply for admission to an educational institution, in accordance with these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

1. A person who at the time of their application also holds dual R.O.C. nationality shall have never had household registration in Taiwan.
2. A person who before the time of their application also held dual R.O.C. nationality but no longer does at the time of their application shall have renounced their R.O.C. nationality with the approval of the Ministry of the Interior on a date at least eight full years before making their application.
3. The persons referred to in the preceding two subparagraphs must have never previously undertaken studies in Taiwan as an overseas Chinese student nor have accepted a placement by the University Entrance Committee for Overseas Chinese Students in the current academic year

A foreign national who was selected by a foreign government, organization, or school to study in Taiwan in accordance with the Education Cooperation Framework Agreement, and who has never had household registration in Taiwan may be given exemption from the restrictions set out in the preceding

two paragraphs if the competent education administrative authority gives approval.

The periods of six years and eight years stipulated in Paragraph 2 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.

The term “overseas” used in Paragraph 2 refers to countries or regions other than the Mainland Area, Hong Kong, and Macau; the term “reside overseas continuously” means that an international student has stayed in Taiwan for no more than a total of 120 days in each calendar year. When calculating the number of consecutive years spent overseas, if the initial or final year of the period is not a complete calendar year, any time spent in Taiwan in the initial or final year must not exceed 120 days. However, time that a person has spent in Taiwan is not subject to this restriction and it is not counted when calculating how long they were in Taiwan in a particular year if the person has documentary proof that they:

1. Attended an overseas youth training course organized by the Overseas Compatriot Affairs Council or a technical professional training program accredited by the Ministry of Education;
2. spent a total period of less than two years undertaking Chinese language classes at a Chinese language center at a university or tertiary college which has Ministry of Education approval to recruit students overseas;
3. spent a total period of less than two years in Taiwan as an exchange student; or
4. spent a total period of less than two years undertaking an internship that they came to Taiwan to undertake with the approval of the designated central competent authority;

A person who held both foreign and R.O.C. nationalities and applied for annulment of their R.O.C. nationality before the date of effect of the February 1, 2011 amendment to these Regulations may apply for admission as an international student in accordance with the provisions in place before the amendment and is not subject to the restrictions set out in Paragraph 2.

Article 3

An applicant of foreign nationality, who is eligible for permanent residence in Hong Kong or Macao, who has never had household registration in Taiwan, and who at the time of their application has resided in Hong Kong, Macao, or elsewhere overseas continuously for at least six years may apply for admission in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways

listed is not counted when calculating the period of continuous residence referred to in the previous paragraph.

A person who was formerly from the Mainland Area and who has foreign nationality and has never had household registration in Taiwan, and who at the time of their application has resided overseas continuously for at least six years may apply for admission to an educational institution, in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period that they resided continuously overseas referred to in the previous paragraph.

The periods of six years and eight years stipulated in Paragraph 1 and in Paragraph 3 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.

The definition of “overseas” given in Paragraph 5 of the previous article also applies, *mutatis mutandis*, to Paragraphs 1 to 4.

Article 4

An international student applying to study at an educational institution in Taiwan in accordance with the provisions of the two previous articles is limited to only applying once [English note: a person may apply to more than one educational institution, but if one of these applications is successful and they then study in Taiwan, they cannot subsequently apply to study at another educational institution for a course at that level]. After completing the course of study at the educational institution to which they applied, unless the student is applying for admission to a program for a master’s degree or a higher degree, which may be handled by each university in accordance with its regulations, if the students wants to continue studying in Taiwan, their application shall be handled in the same manner as the admission procedures for domestic students.

Article 7

International students applying for admission to a university or tertiary college shall submit the following documents and apply directly to the university or college during its designated application period, and applicants who pass the review or screening process will be issued an admission notice:

1. An enrollment application form

2. Academic credentials:

(1) Academic credentials from the Mainland Area: shall be handled in accordance with the provisions of the Regulations Regarding the Assessment and Recognition of Academic Credentials for Mainland Area.

(2) Academic credentials from Hong Kong or Macao: shall be handled in accordance with the provisions of the Regulations Governing the Examination and Recognition of Educational Qualifications from Hong Kong and Macao.

(3) Academic credentials from other areas:

A. Academic credentials issued by an Overseas Taiwan School or a school for Taiwan business people in the Mainland Area shall be regarded as equivalent to academic credentials issued by an educational institution of the same level in Taiwan.

B. Academic credentials from overseas other than those referred to the preceding two items shall be handled in accordance with the provisions of the Regulations Regarding the Assessment and Recognition of Foreign Academic Credentials for Institutions of Higher Education. However, academic credentials issued by a campus or branch that a foreign educational institution has established in the Mainland Area by a foreign educational institution shall be notarized by a notary public there and authenticated by an agency established or designated by the Executive Yuan, or by a private organization commissioned by the Executive Yuan.

3. Proof of applicant's having sufficient funds to live on while studying in Taiwan, or proof of having a full scholarship or grant provided by a government, university, college, or private organization.

4. Other documents required by the educational institution being applied to.

When an educational institution reviews an international student's admission application, if any of the documents specified in Subparagraphs 2 and 4 of the preceding paragraph have not been authenticated by an overseas mission, or by an agency established or designated by the Executive Yuan, or by a private organization commissioned by the Executive Yuan, and the educational institution has any doubts about them, it may request authentication by an overseas agency. If documents that have already been authenticated raise any doubts, the educational institution may request examination of the documents.

Article 7-1

An international student who submits any certificate or document as part of their application for admission to an educational institution that is found to be forged, fabricated, or that has been altered in some way shall have their enrollment eligibility revoked. If the student has already registered and begun classes, their registration as a current student shall be cancelled and they will not be awarded any certification whatsoever regarding their related academic undertakings. If any such circumstances are first discovered after a student has already graduated, the educational institution shall revoke the former student's eligibility to graduate and shall require any degree already awarded to be returned and shall rescind it.

Article 8

An international student who has completed a bachelor's degree or a higher degree in Taiwan and is applying to be admitted to do a master's degree program or a higher degree may submit copies of their graduation certificate from a university or tertiary college in Taiwan and transcripts for each year of their studies and apply in accordance with the provisions of Article 7 and is not subject to the provisions of Article 7, Paragraph 1, Item 2.

An international student who has graduated from a private elementary or secondary school for international residents in Taiwan, or from a bilingual division (program) affiliated to a domestic senior secondary school, or from a program teaching a foreign curriculum that is offered by a division of a domestic private elementary school, junior high school or senior secondary school may submit copies of their graduation certificate and transcripts for each year and apply for admission in accordance with the provisions of Article 7 and is not subject to the provisions of Article 4, or of Article 7, Paragraph 1, Subparagraph 2.

Article 12

An international student who with Ministry of Education approval is undertaking an internship after graduating from a university in Taiwan may have their international student status extended for up to one year after their graduation.

An international student who has been permitted to undertake initial household registration, resident registration, naturalization, or restoration of R.O.C. nationality procedures during the course of their studies in Taiwan will forfeit their international student status and shall be dismissed by their educational institution.

An international student who is dismissed from a university or tertiary college after admission as a result of unsatisfactory conduct, or poor academic performance, or a conviction in criminal case proceedings is not permitted to re-apply for admission to an educational institution under these Regulations.

Each university or tertiary college shall formulate its own regulations regarding transfers of international students, incorporate these into its admission regulations, and submit these to the Ministry of Education for approval. However, an international student who has been dismissed by the educational institution that admitted the student as a result of unsatisfactory conduct or of a conviction in criminal case proceedings is not permitted to transfer to another university or tertiary college.

Article 22

When a new international student registers, they shall submit proof of being covered by a medical and injury insurance policy which is valid for at least six months from the date that they entered Taiwan. Current students shall present documentary proof that they have joined Taiwan's National Health Insurance Plan.

If the proof of insurance referred to in the previous paragraph was issued in a foreign country it shall be authenticated by an overseas mission.

Note:

As defined in "Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan", the term "overseas Chinese student" refers to a student of Chinese descent who has come to Taiwan to study, who was born and lived overseas until the present time, or who has been living overseas for six or more consecutive years in the immediate past and obtained permanent or long-term residency status overseas. Note that for those applying to study in the departments of medicine, dentistry, or Chinese medicine at Taiwan universities, the minimum required number of consecutive years of overseas residency is eight years.

The term "overseas" refers to locations or countries outside of Taiwan, China, Macao, and Hong Kong; the term "consecutive years of residency" is defined as Overseas Chinese Students staying in Taiwan for less than 120 days per calendar year. If the calculated calendar year is not one complete calendar year, their stay in Taiwan should not exceed 120 days within the calculated calendar year period.
