Touristship 4 rules of Ishigaki

For any inquiries please contact : Ishigaki Tourism Culture Division xx 0980-82-1535

Thank you for visiting
Ishigaki Island.

Touristship is behavior of
tourists that considers,
contributes, and interacts
with the local community.

We listed "**4 touristships** in
Ishigaki" so everyone can
enjoy this island
while protecting Ishigaki's
culture and nature.

Ishigaki welcomes everyone
with great **touristship** with
open arms.

01 Don't step on the corals!

Some corals die when stepped on
during marine activities. These corals
are Ishigaki's treasure, let's protect
them together.

03 Recycle your trash!

To recycle as many as possible, Ishigaki
sorts the trash to 5 categories. The
labels can be found on the trash bin, so
please follow the rules.

02 Drive slowly Pause at crossings

Drive slowly to prevent road kills of our
endangered animals such as crested
eagles and Yellow-margined box turtles.
There are many crossings without
traffic lights, so don't forget to pause!

04 Protect the local's life

Ishigaki is a home to 50K people, so
please be mindful of the local's life
too! Walking around the city in
swimsuits is culturally inappropriate,
and there are Utakis (sacred ground)
that are not open to the tourists.
